PROFILE

My experience in the programming area has made it easier for me to learn web development and I currently feel very motivated and eager to learn new technologies every day in this fascinating world.

I am a proactive, committed and communicative person, which allows me to establish a solid collaboration with the members of a work team and other departments.

My problem-solving skills and ability to quickly adapt to various situations have been instrumental in achieving outstanding results in my professional career.

Additionally, my creative approach and meticulous organization allow me to approach challenges with a clear perspective and ensure efficient execution on each project.
